

Stolen Car Insurance Claim Process

Considering to file insurance claim for your stolen car?

Follow the procedure to avoid any hassle.

Claims for a stolen vehicle are covered under an auto insurance with comprehensive coverage.

Report the theft to police & insurance carrier as soon as possible.

Insurance provider waits for sometime to see if the car can be recovered before finalizing your claim.

You might have to provide details regarding time of theft, location of vehicle when stolen, details about vehicle, etc.

Once the claim has been approved, you receive the current value of the vehicle minus your deductible.
