It is easy to file a car insurance claim, however here are some reasons why your claim can be denied:

- The policy had lapsed before the event took place.
- Provider was informed after the designated notification period.
- An insured driver was driving without a valid license.
- The driver was under the influence of alcohol or any drug.

- Vehicle was driven by a driver not listed on the insurance.
- Vehicle was repaired after accident without notifying the provider.
- If you have bought a used car & policy hasn't been transferred to your name.
- Vehicle was being driven beyond the graphical area mentioned in the policy.
